PROFESSIONAL PROFILE

Results-driven Specialist with a strong foundation in Management Information Systems and Cybersecurity. Expert at aligning technical infrastructure with business goals to drive operational efficiency and revenue growth. Proven track record in managing enterprise digital systems, securing data assets, and optimizing client-facing technologies in high-pressure environments.

PROFESSIONAL EXPERIENCE

IT & Tele-Marketer

Nobel Lending Ltd

2026 – Present

Fintech Sector

- **System Optimization:** Implemented data-driven lead qualification protocols within the CRM, increasing outreach efficiency by 30%.
- **Infrastructure Support:** Managed telecommunication systems and hardware for a high-volume fintech environment with zero downtime.
- **Data Analytics:** Analyzed market trends and system logs to identify high-potential B2B prospects for digital lending solutions.
- **Cybersecurity:** Maintained strict data protection standards during client onboarding and digital transaction processes.

IT & Relationship Officer

Dream and Lead Capital Limited

2025 – 2025

Business Ops

- **Lead Conversion:** Bridged the gap between technical system benefits and business needs to secure premium enterprise accounts.
- **Process Automation:** Audited manual onboarding workflows and introduced digital tools that reduced client wait times by 20%.
- **Client Liaison:** Served as the primary technical contact for system troubleshooting, ensuring 98% client satisfaction.
- **Market Expansion:** Executed digital outreach strategies centered on the firm's technological competitive advantages.

IT & Marketing Intern

Mwaura Property Managers

2025 – 2025

Real Tech Sector

- **Network Admin:** Monitored and maintained the firm's localized local area networks and property management software.
- **Technical Training:** Standardized digital operations by training staff and clients on new property-tech platform features.
- **Security Audits:** Conducted weekly integrity checks on internal databases to prevent unauthorized access and data loss.
- **Lead Generation:** Leveraged digital networking and technical outreach to source and qualify real estate development leads.
